Professional Summary

Software Developer Engineer with hands-on experience in designing, developing, testing, and scaling web applications. Proficient in Angular, TypeScript, PHP, and AdonisJS, with full-stack development, RESTful API design, and SaaS implementation experience. Improved application performance, strengthened data security, and delivered reliable software solutions in Agile team environments.

Experience

UBITECH SOLUTIONS

Software Development Engineer

Gwalior, India

March 2024 – Present

Key Projects:

HRMS Software (Human Resource Management System)

- **Engineered** an HR management system that automated workforce operations, reducing manual processing time by **35%**.
- **Engineered and deployed 5+ core HR modules** covering employee management, attendance, payroll, and performance tracking.
- **Refactored** SQL queries and backend APIs, increasing data retrieval speed by **45%**.
- **Deployed** secure, role-based access control to comply with data protection standards.

UbiRecruit (Recruitment Management System)

- **Designed and delivered** a recruitment platform that streamlined candidate tracking and onboarding, cutting HR workload by **40%**.
- **Automated** offer letter generation and onboarding workflows, reducing manual effort.
- **Launched** analytics dashboards used by **10+ HR personnel** for real-time recruitment insights.

UbiCRM (Customer Relationship Management System)

- **Architected and launched** a scalable CRM application to manage sales pipelines, improving deal tracking accuracy by **35%**.
- **Built** real-time analytics dashboards and calendar integrations to increase team efficiency.
- **Implemented** SaaS-based multi-tenant architecture for **5+ clients**, ensuring data isolation and scalability.
- **Accelerated** system responsiveness by **50%** through REST API optimization and caching.

Internship

UBITECH SOLUTIONS

Web Development Intern

Gwalior, India

January 2023 – June 2023

- **Built** and deployed **3+ responsive web modules** using Angular and TypeScript, increasing UI responsiveness by **20%**.
- **Integrated** RESTful API endpoints with AdonisJS, reducing backend latency by **25%**.
- **Delivered** features in Agile sprints ahead of schedule.
- **Conducted** testing and code reviews to enhance project stability.

Education

Master of Business Administration (MBA)

Vikrant University, Gwalior, India

July 2025 (Pursuing)

Bachelor of Commerce (Computers)

Jiwaji University, Gwalior, India

June 2023
